

VISION INTERNATIONAL PEOPLE GROUP was founded in 1996. From the very beginning of its operations, the Company had established its main objective - work in the health market and creating healthy businesses. By combining these two approaches to human health, the philosophy of the Company was created, the basis of which is acknowledging human health as the greatest virtue, consisting of physical, spiritual, intellectual and social harmony in one's life. Today, VISION INTERNATIONAL PEOPLE GROUP is a renowned international company which distributes biologically active food supplements (BAFS) of the highest quality and a new generation of cosmetics by way of multilevel marketing.

VISION INTERNATIONAL PEOPLE GROUP presently operates in 17 countries around the world. The products it offers, thanks to their unique natural properties, specially selected plant ingredients and unique production technology, have gained recognition among their clients, which has led to the dynamic development of the company. Since 1998, VISION has been cooperating with the ARKOPHARMA Pharmaceutical Laboratories, a world leader in the production of natural dietary supplements and a partner in research and product development. In cooperation with ARKOPHARMA, VISION also owns the NUTRIPHARMA manufacturing facility in Ireland, where food supplements are made, and a laboratory on the Mediterranean coast where unique cosmetics are developed.
